

Do you want to work with a Xisqueta wool craftswoman?

Visit the Taller Tèxtil de la Lina, artisan of the Obrador Xisqueta Association, located in the Masies de Llaràs, a natural environment that offers us many options for collecting dyeing plants and a unique opportunity to discover this corner of the Baix Pallars. You will be accompanied by Lina, a versatile craftswoman and a well of wisdom in various fields (natural dyes, plain low loom, knitting, crochet, stocking, spinning, natural soaps, etc....). You can choose one of these two activities: the art of spinning, both with a sharpener and a spindle; or take a first dive into a magical world, that of natural dyes.

SUMMARY OF THE EXPERIENCE
