

Learning to bring Nature to Cloth

I propose an adventure of immersion in my town, in my house and in my dye garden, to know and learn, enjoying what nature offers us; The Earth. Together, we will create a space of trust in which we will discover the possibilities of the plants around us and their dyeing and pigmenting properties. We will walk around the environment and the dye garden to recognize and collect the plants and leaves with which we will carry out our project. (handkerchief, rug etc ...)

SUMMARY OF THE EXPERIENCE

Price

One day workshop 180€ approx

Calendar

Preferably between April and November

Includes
